EDUCATION

Dwarkadas J. Sanghvi College Of Engineering

Btech In Information Technology

Mumbai, India

Nov 2022 - Present

TP Bhatia College Of Science

HSC

Mumbai, India

Jun 2020 - May 2022

EXPERIENCE

Software Development Intern

Jun 2025 - Jul 2025

KVPV Tech

Remote

- Engineered a scalable HLS video streaming pipeline using AWS MediaConvert and CloudFront, enabling low-latency playback and adaptive streaming across multiple qualities (360p-1080p) on all devices.
- Leveraged Next.js and MERN stack for full-stack development on various projects, contributing to the successful launch of new features and applications in 7+ different projects.
- Integrated and optimized Qdrant vector database for an API documentation assistant, restructuring JSON documentation to deliver significantly more accurate and context-aware responses from the LLM.

PROJECTS

CraftFolio – No-code AI-powered Portfolio Builder 🌐 🌐

- Led the creation of a no-code portfolio construction platform, leveraging Next.js, Supabase, and TypeScript, that provided professional templates and instantaneous editing features, reducing portfolio setup time by 75%.
- Designed and implemented a sophisticated AI assistant (Gemini + LangChain) to optimize resume analysis, automate the creation of portfolio content, and facilitate real-time updates (including themes, text improvements, and section organization), resulting in a 90% improvement in content generation effectiveness.
- Managed the comprehensive full-stack deployment on AWS EC2, utilizing Docker, NGINX, Cloudflare, and GitHub Actions CI/CD pipelines, which enabled protected custom subdomains and HTTPS-encrypted custom domains, ensuring 99.9% system availability and 10x scalability for future expansion.

ResumeCraft - AI Powered Resume Builder 🌐 🌐

- Built an innovative AI-powered resume builder with Next.js, Tailwind, Supabase, and Clerk, effectively used by 250+ users to create over 500+ highly ATS-friendly resumes with diverse customizable templates
- Integrated advanced Google Gemini + LangChain functionalities to intelligently auto-generate and optimize comprehensive resume content, dramatically reducing manual editing effort by 70%
- Implemented seamless real-time section editing, instant template switching, and efficient PDF export features, consistently achieving an average resume creation time of under 10 minutes

LawWise - Law Assistant Chatbot Using Langchain and Pinecone DB 🌐 🌐

- Developed a legal research assistant leveraging LangChain and Pinecone DB, enabling users to upload and query multiple law documents, improving information retrieval efficiency by 80%.
- Implemented advanced vectorization techniques using LangChain to process and index diverse legal documents, facilitating semantically relevant question-answering capabilities.
- Engineered a user-friendly chatbot interface with a scalable backend, successfully handling over 100 concurrent user queries and demonstrating a 95% accuracy rate in answering domain-specific legal questions.

SKILLS

- Frontend** : JavaScript , TypeScript, React.js, Next.js, Redux Toolkit, Zustand, Langchain, Tailwind CSS
- Backend** : Node.js, Express.js, REST APIs, GraphQL, MongoDB, Convex DB, QdrantDB, Supabase, PostgreSQL, WebSockets (Socket.io)
- ORMS & DevOps**: Prisma, Drizzle, Docker, AWS (S3, EC2, Lambda, Media Convert), CI/CD Pipelines (GitHub Actions), Nginx, PM2.
